Date Funded (first funding):	N/A	City:	Rantoul
Date Repaid ¹ :	N/A	State:	Illinois

¹If repayment was incremental, please enter the most recent repayment date.

American taxpayers are quite interested in knowing how banks have used the money that Treasury has invested under the Capital Purchase Program (CPP) and Community Development Capital Initiative (CDCI). To answer that question, Treasury is seeking responses that describe generally how the CPP/CDCI investment has affected the operation of your business. We understand that once received, the cash associated with TARP funding is indistinguishable from other cash sources, unless the funds were segregated, and therefore it may not be feasible to identify precisely how the CPP/CDCI investment was deployed or how many CPP/CDCI dollars were allocated to each use. Nevertheless, we ask you to provide as much information as you can about how you have used the capital Treasury has provided, and how your uses of that capital have changed over time. Treasury will be pairing this survey with a summary of certain balance sheet and other financial data from your institution's regulatory filings, so to the extent you find it helpful to do so, please feel free to refer to your institution's quarterly call reports to illustrate your answers. This is your opportunity to speak to the taxpayers in your own words, which will be posted on our website.

What specific ways did your institution utilize CPP/CDCI capital? Check all that apply and elaborate as appropriate, especially if the uses have shifted over time. Your responses should reflect actions taken over the past year (or for the portion of the year in which CPP/CDCI funds were outstanding).

☐ Increase lending or reduce lending less than otherwise would have occurred.

☐ To the extent the funds supported increased lending, please describe the major type of loans, if possible (residential mortgage loans, commercial mortgage loans, small business loans, etc.).

Community Plus Federal Credit Union

☐ Increase charge-offs.

☐ Purchase another financial institution or purchase assets from another financial institution.

☒ Held as non-leveraged increase to total capital.

The funds were obtained to increase capital while we were expanding into an underserved market. Because of the funding we were able to increase deposits 1.53% (6.12% annualized) in 4Q2010 without a negative impact on our capital ratio.

Community Plus Federal Credit Union

What actions were you able to avoid because of the capital infusion of CPP/CDCI funds?

In 2008 Community Plus FCU opened a branch in an underserved neighborhood. It was understood that the branch would cause the credit union operation to post negative earnings until sufficient growth had been obtained. With the CDFI funds at the end of 2010 the capital ratio was 11.14%. Without the CDFI funds the ratio would have been 8.02%. At that point it likely would have been necessary to close the branch in the underserved area.

Community Plus Federal Credit Union

What actions were you able to take that you may not have taken without the capital infusion of CPP/CDCI funds?

We have continued to focus on growth to build earnings. Growth would not be possible as we would not have wanted our capital ratio to fall below 8%.
